Here are the features you would surely be interested in: We all think of stick man as something that is really simple, which makes the idea of having two armies of stickman fighting each other extremely fun and exciting in certain ways. But don't think of it as a simple battle between a few stickmen, you can access hundreds of different units on a large-scale battlefield. In addition to that, you can choose to control any character belonging to your army with manual control. Therefore, you can experience the feeling of being a soldier who is fighting in a great battle of two armies. In addition, you can also reduce the casualties on your side by intelligently controlling it with your character. Units can be equipped with different weapons and items that can give them great help during a battle. You can purchase these weapons through your in-game progress and purchase them with your gold. During a decisive battle, a slight advantage in the weapon can be extremely important for making ball balls to your army towards victory. Items also have their features, including leaf items, ice items, lava items, wild objects, and vampire items. By using sheet objects, you'll get a slight increase in speed compared to other items, however, your power would be reduced. For units carrying ice objects, their enemies slow down and sometimes freeze through the cold. On the other hand, lava objects have the power of powerful volcanoes that burn your enemies and repel some of the damage back to them. Born from Chaos, Vamp items make your units immune to poisonous damage, as well as allow them to steal life force from enemies. In addition, the items also release a powerful burst of energy on any approaching enemy. And finally, wild objects, made from the bones and skins of powerful beasts, give their bearer extreme and resilient power so they can charge in the enemy's line like a wild warrior. And speaking of wild objects, you'll find them extremely useful when faced with endless zombie swamps in Endless Survivor mode. Your achievements are judging by the number of nights you can survive. Stand your ground while you'll receive amazing prizes at the end of your quests. I always like the way they tell stories in Stick War Legacy. Comic cinematic introductions make the game extremely exciting with its striking art styles. In addition, they also do a good job in the sum of previous chapters and explaining what's happening in the next stages. This allows players to catch up on game progress while remaining relaxed.
